ABOUT US

Sterling Surgicals was established in 1989 and is one of the renowned companies in the Surgical and MIS Industry in India.

We have been engaged in manufacturing and trading of quality endoscopic instruments for more than 3 decades under the leadership of Mr. Ramesh Shah. We offer a wide range of surgical products in the fields of Laparoscopy, Gynaecology, Arthroscopy, ENT and Urology.

With more than 4 decades of experience in the industry, we have honed our expertise in minimally invasive technologies. Our team is committed to pushing the boundaries of innovation to develop solutions that are reliable & sustainable. We are your trusted partner for endoscopy.

We have various dealers across several states under the Pan-India network and many customers in the overseas market as well.

From repairing to manufacturing quality products and providing OEM solutions to the customers, Sterling Surgicals has come a long way.

Latest entrance in the company is Mr. Shanay Shah, BTech in Bio - Medical Engineering.

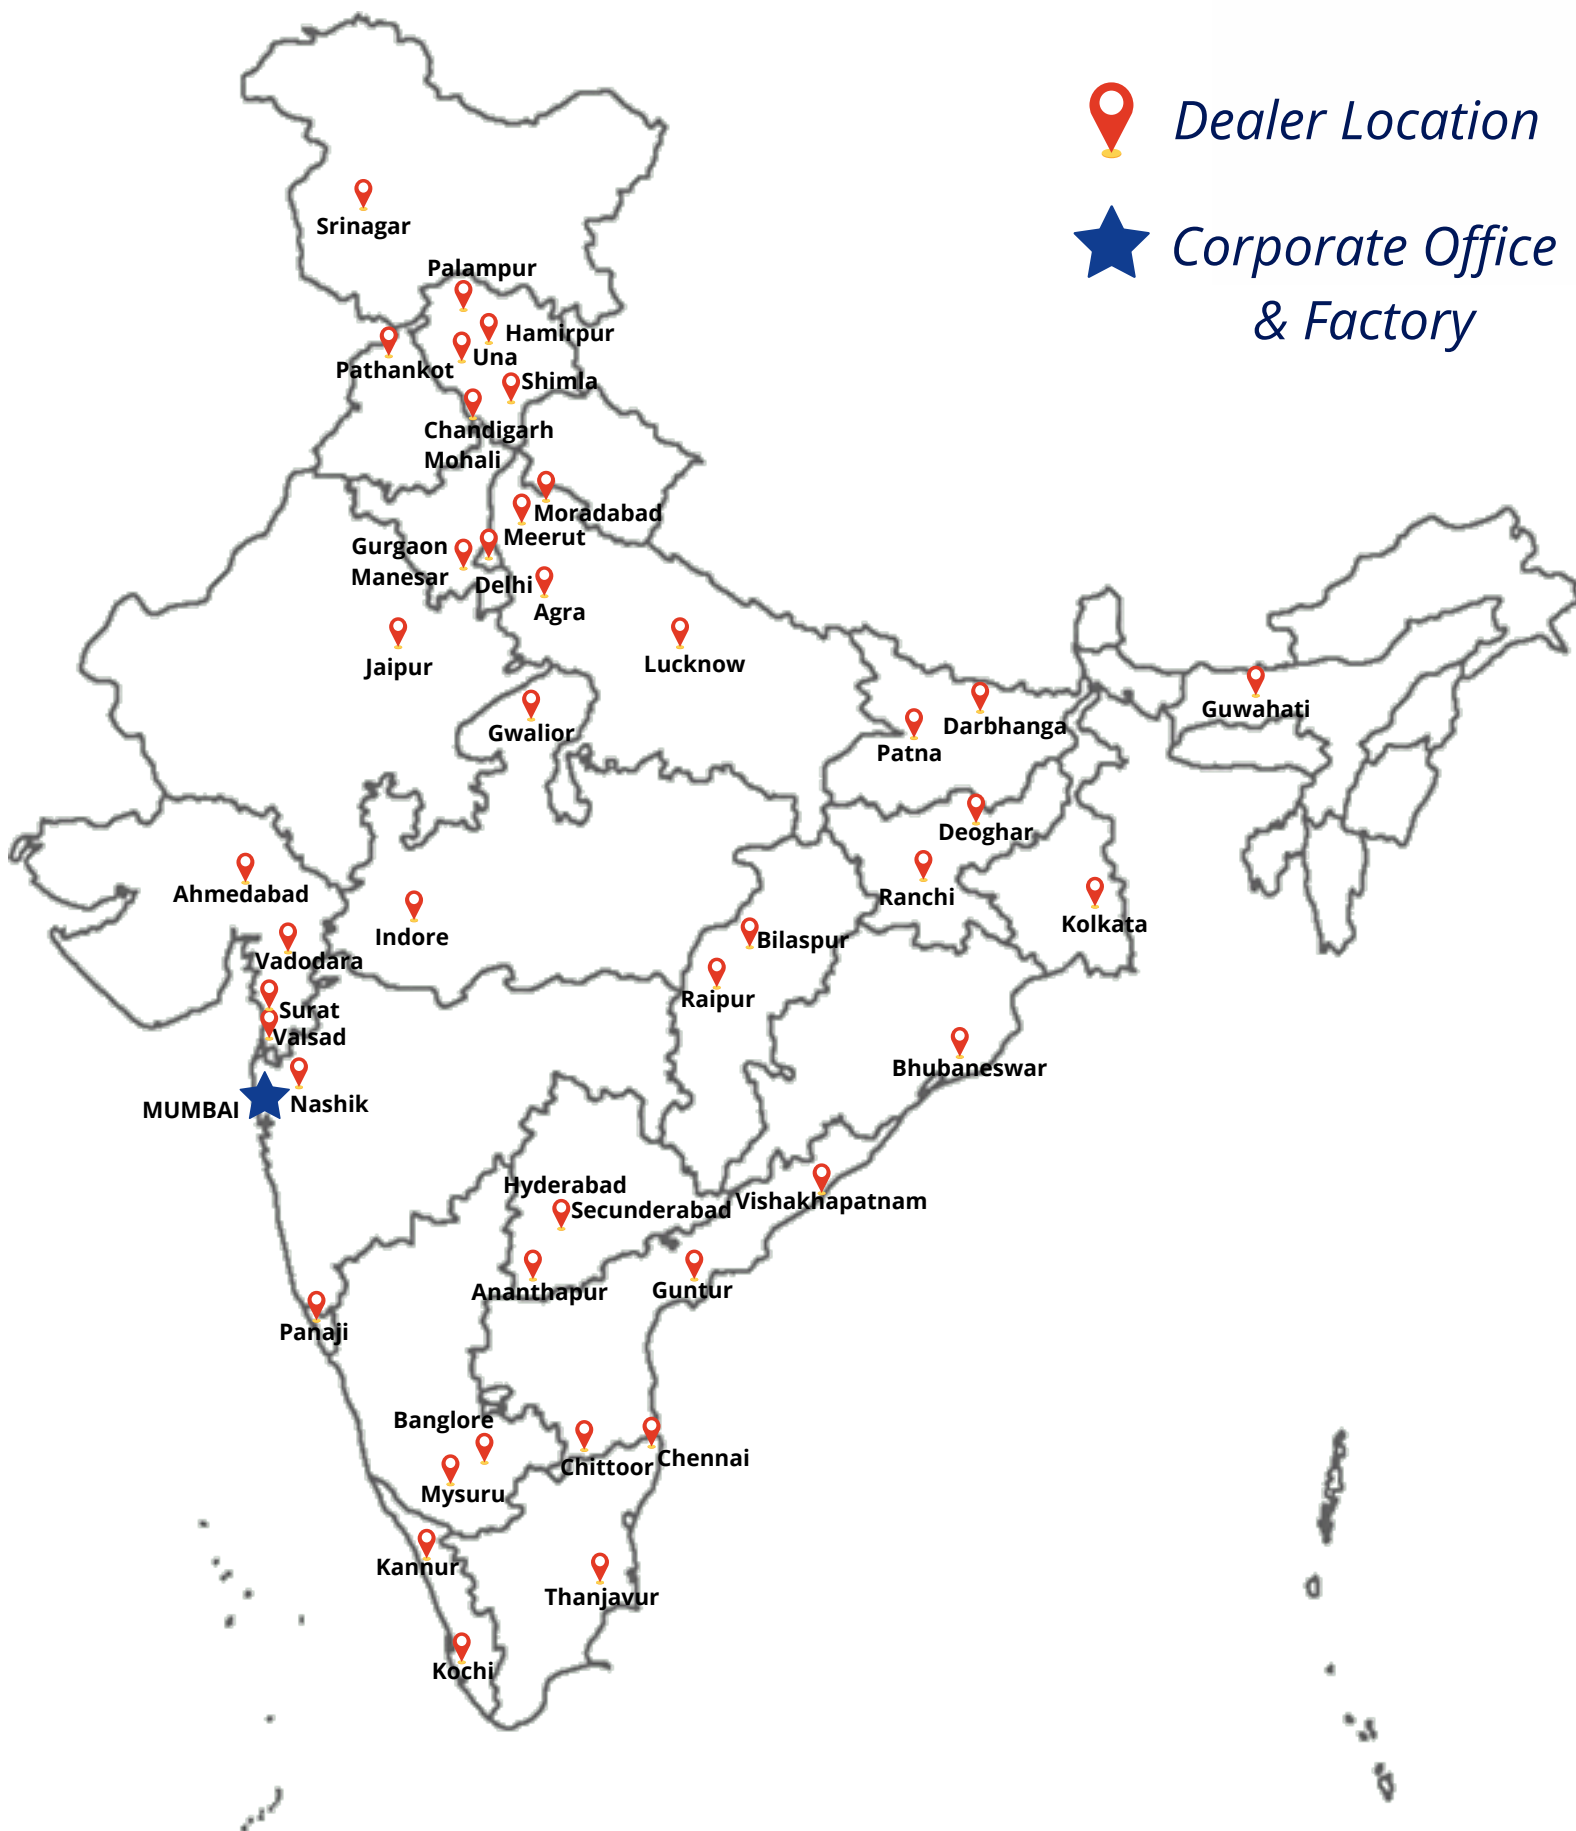

COMPANY ADVISOR & PRODUCT SPECIALIST

- Under the guidance of Mr. Ramesh Shah, Sterling Surgicals was started in 1989.
- He started his job in 1977 in Chimco Bio-Medical Engineers and then in Ajmera Bio-Medical Engineers.
- He had worked for Karl Storz in 90's and had taken training in German & Swiss factory, during the same period of time.
